

Environmental Policy Statement

VITRUVIUS

Vitruvius Management Services Limited provides Specialist Project, Commercial and Construction Management Services and is committed to avoiding and minimising our impact on our environment so far as is reasonably practicable in all business activities associated with the services we provide our customers.

We have identified our significant environmental aspects which provide a framework for establishing and reviewing the Company Environmental Objectives and Targets, which are displayed within the office and issued to staff.

We are committed to continuously improving our environmental efficiency and are committed to ensure complete compliance to applicable legal requirements, as well as others pertinent to our specific Environmental Aspects. In particular we will promote Environmental Best Practice to enable our clients to improve their own environmental performance.

In addition to this we will:-

- Manage and reduce our own environmental aspects and impacts through minimisation of waste, actively promoting recycling, responsible procurement practices and by undertaking regular reviews of our operations to measure and maintain our existing environmental performance and where possible make improvements;
- Evaluate our operations by undertaking Environmental Risk Assessments in order to identify significant aspects and impacts to ensure environmental protection of the environment;
- Provide technically competent services and professional solutions that help to conserve and protect the environment;
- Raise environmental awareness with our staff, suppliers, subcontractors, clients, end users, and all other interested parties along with all other organisations with whom we have contact; and
- Consider sustainable criteria, Life Cycle Assessments on plant and equipment and encourage the use of sustainable resources, designs and practices over the whole life cycle of the services we provide.

We are serious about the policy we have declared, having documented and implemented an Integrated Management System compliant with the requirements of **ISO 14001:2015**. This has been established, agreed and endorsed by the Directors of Vitruvius Management Services Limited.
